

KONICA MINOLTA

Gen3 Octopus Payment System

Direct Charging Solution • Uplift Self-Service Operation

Your back office administrative department may face the following challenges while handling printing service transactions:

Complex charging scheme

Inflexible printing cost control

Heavy & tedious administrative work

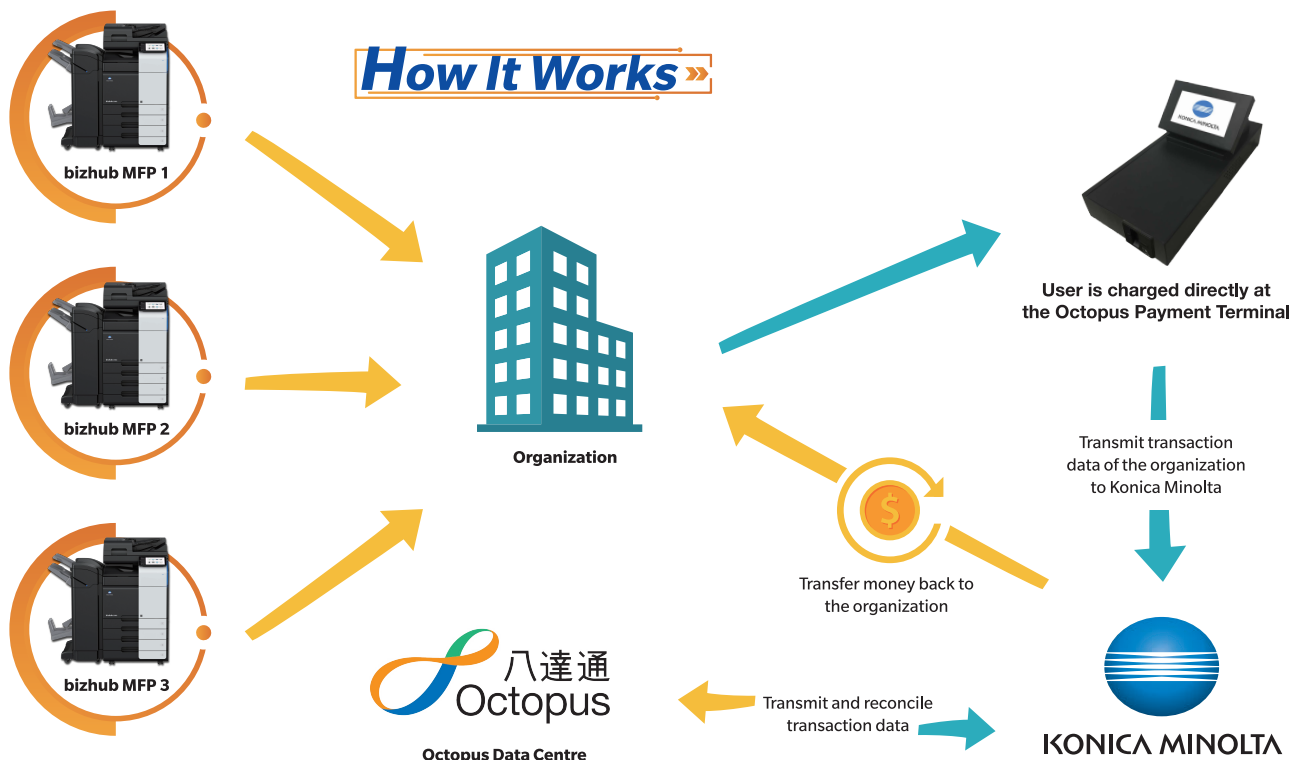

Risky in cash handling

Introduction »

Konica Minolta's Direct Charging Solution, enabled with Octopus Payment System, provides administrators with a convenient method for settling payment in accordance with the "user pays" principle on bizhub multi-functional printers (MFPs). Each MFP can have its own pricing scheme and work independently as a self-serve printing workstation.

How It Works »

Key Features »

Discount pricing
setting for
particular period

Auto-sent
Daily transaction data
to administrator email

Export
transaction log to
Excel anytime

Auto-sent E-receipt
to customer email

 **Different charging
scheme based on :**

- Job type (Print/ Copy)
- Paper size (A3/A4)
- Printing mode (Black & White / Color)
- Blank or duplex page
