Network Assessment Service
Your First Step towards Cybersecurity Best Practice

As more and more companies are doing business online, the possibilities of data breaches are increasing proportionally. Companies should take proactive actions against the rise of cybersecurity threats.

5 Damaging Consequences of Data Breach

| Business Disruption	Reputation Damage	Financial Loss	Leakage of Sensitive Data	Legal Liability

Service Overview

Konica Minolta's Network Assessment Service helps identify threats and vulnerabilities in your IT infrastructure. A comprehensive assessment report is provided for you to better manage all the potential security risks.

Companies Encountered Cyber Attack Incidents in Hong Kong

(Bar chart showing 2018, 2019, 2020 with y-axis 0%–60%)

Source: HKPC's SSH Hong Kong Enterprise Cyber Security Readiness Index Survey 2020
