

KONICA MINOLTA

# Power up your retail business with **Unified Commerce Platform**

Our unified commerce platform is an all-in-one point of sales (POS) system which simplifies the process of O2O Retail Business Operations. Real time sales, inventory and finance data can be accessed anytime, anywhere at one platform, powering your business with insightful business intelligence.

## Highlights of Omni-Channel Retail Solution

### Tailor-made POS layout

User-friendly interface supporting multiple devices

### One platform for all sizes of business

Support from single store to chain stores

### Real-time dashboard

Real-time business data in a centralized database

### Expanded payment & currency options

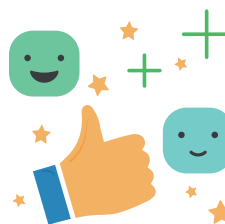

Accept cash, credit cards, foreign currencies, vouchers, gift cards and promotional discounts

### Simple-to-use eShop Builder

All items, prices and discounts can synchronize seamlessly with your eCommerce platform

### Acquire, engage & retain customers

Understand your customers with built-in CRM and drive sales with loyalty, reward & AI program

### Integration with other peripheral devices

Various peripheral devices available to fit for your business needs

# Key Benefits

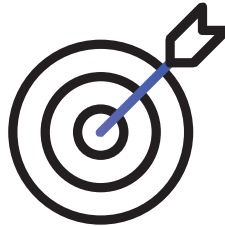

## Timely business decisions

Monitor your KPIs and make smart business decisions

## Optimize retail operations

Manage your products, prices, campaigns, discounts and loyalty programs in one platform, giving a boost to productivity

## Security access control

Role-based access control ensure sensitive data is only accessed by authorized user

## Enhanced inventory replenishment
