

KONICA MINOLTA

# Network End-to-End One-stop Solution

Poor Network Performance and Coverage?

Unstable Business Applications ?

Limited IT Budget ?

## Solution Overview

Access Point

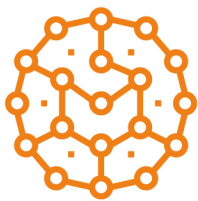

Switch (PoE)

Cloud Control

## Benefits

### Low Latency, Faster Speeds and Enhanced Capacity

- Broader coverage, energy efficiency vs WiFi 5

### Work App Enhancement

- Optimize business application performance (POS/ERP/ Voice Call/ Video Conference)

### Easy-to-use and Secure Enough

- Power over Ethernet (PoE) switch, no DC power required for AP setup
- Integrated firewall with all necessary security settings on cloud-based management tool
