USER BENEFITS

Easy to Use, Intuitive Control Panel

The large colour LCD touch panel is easy to operate even for first-time users. An intuitive interface and smartphone-like operability helps you get to the functions you need quickly, with no fuss.

4.84-inch touch panel

Easy Access

Frontal access to the paper tray and toner cartages allows your bizhub to be placed anywhere, even if it's a crowded location.

Wireless Connectivity

Fed up with cables and wires getting in the way and restricting where you can place your printer in the office? All models are equipped to operate wirelessly, with no need for LAN wiring. Place your machine wherever is convenient, and print from anywhere inside your office via your Wi-Fi network.

Keep Your Documents Secure with ID Print

The 5020i is equipped with an ID card reader (NFC) on the operation panel, enabling ID Print. Documents will only be printed once a user has identified oneself to the machine, helping to ensure your documents don't end up in the wrong hands.

A Small Footprint

Whether you are adding to your existing office network or looking for a single workhorse, having a machine small enough to place on a desktop or any convenient surface is a huge benefit.

# COPY & PRINT

Reliable High-speed Printing

Print up to 50 pages per minute. Outstanding durability and low maintenance needs are combined with great quality and high speed, so you can keep printing all day long.

Copy with Clarity

Copy quality has been significantly improved. Scan up to 1,200 dpi using the Document Glass to achieve detailed replication when copying and scanning.

Choose the Ideal Layout

A variety of layout options and double-sided printing help optimize your printed materials and save paper. Combine multiple pages or images onto one sheet when copying and printing. Consolidate up to four pages into one when copying at your MFP, or up to 16 into one when printing.

2 in1

Double-sided output (Standard)

ID Copy

Use the ID Copy function to scan ID cards or other small or irregularly shaped documents and combine both scans cleanly onto a single sheet.

Print together on one page

Print from USB

Data stored on a USB memory device can be printed directly from your bizhub using the USB port on the front panel. Print from a variety of formats including DOCX, PPTX, PDF JPEG, PNG and TIFF.
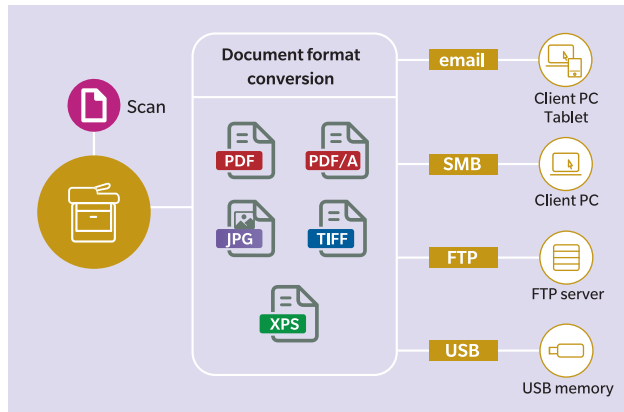

SCAN & FAX

Scan Up To 24 Pages Per Minute

This model can scan double sided documents in full colour at a rate of up to 20 pages per minute and in black and white up to 24 pages per minute. What's more, you can scan up to 80 sheets at once and process a wide range of paper types.

Paperless Sharing

Scan documents to a range of formats and share them in the way that's best for you.

High Security Super G3 Fax

The 5020i model is equipped with high-speed Super G3 faxing, ensuring you are well equipped for any situation. If your bizhub receives a new fax when out of paper, the fax is saved securely until paper is available. What's more, with SecureTransmission, you can confirm your faxes are transmitted withouterror with the use of VoIP. All-round performance in a compact machine.
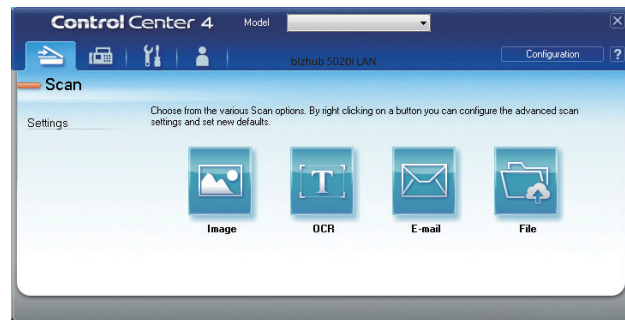

Scan to an Editable Document

If you have our ControlCenter 4 software installed, you can use your MFP to scan to OCR (Optical Character Recognition). With Scan to OCR, you can convert scanned documents into editable text with your bizhub. Once scanned, the text can be entered into a word processing application and edited. You can also create searchable PDFs.

No More Misprints with ControlCenter

Ideal for businesses where you need a variety of print functions daily, ControlCenter is software that allows you to easily access your printer's settings and frequently-used applications from a Windows PC. Access functions such as photo printing, scanning and faxing via the software instead of at the machine's control panel.

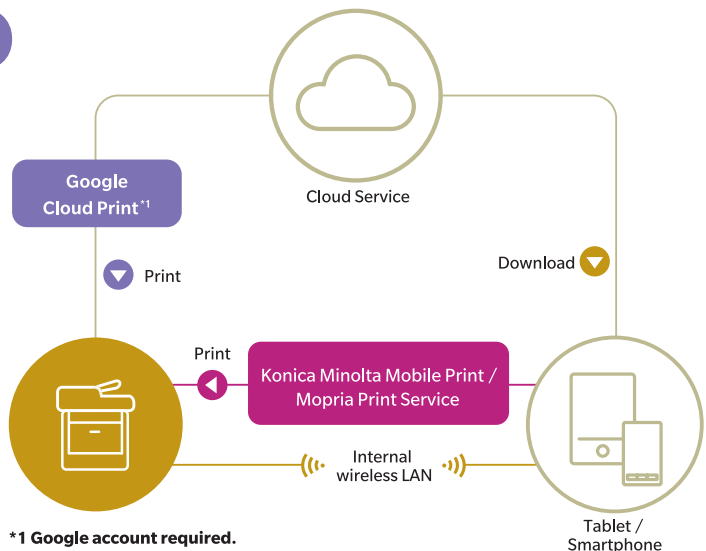

MOBILE & CLOUD

Konica Minolta Mobile Print

Print and scan with your smartphone or tablet. The Konica Minolta Mobile Print app is fast, secure and convenient. Use your bizhub directly from Android, Windows Mobile and Apple devices via your office Wi-Fi or by tapping your device on the NFC reader.*

*Only available for Android devices equipped with an NFC antenna. NFC reader is equipped on bizhub 5020i model only.
For iPhone and iPad, download Konica Minolta Mobile Print from the App Store.
For Android devices, download Konica Minolta Mobile Print from Google Play.
For Windows Mobile devices, download Konica Minolta Mobile Print from the Microsoft Store.

SECURITY

Secure Print

When Secure Print is enabled, a password set when you send to print via the print driver at your computer is required at the machine itself before the print job will start. This prevents confidential documents from lying around the office or being accessed by unauthorised users.

Function Lock

This setting requires each user to have a password and allows the administrator to enable or disable functions for different users, preventing unauthorised users from gaining access. You can also set the maximum volume of printing each user is allowed to do via the machine, helping you stay in control of paper waste.

ENVIRONMENT

Energy-saving Design

Designed to consume as little energy as possible, enjoy printing with far below typical energy consumption .
