

KONICA MINOLTA

Digital Payment Solution

Direct Charging Solution • Uplift Self-service Operation

Your back office teams may face the following challenges while handling printing service transactions:

Complex charging scheme

Inflexible cost control

Heavy & tedious administrative work

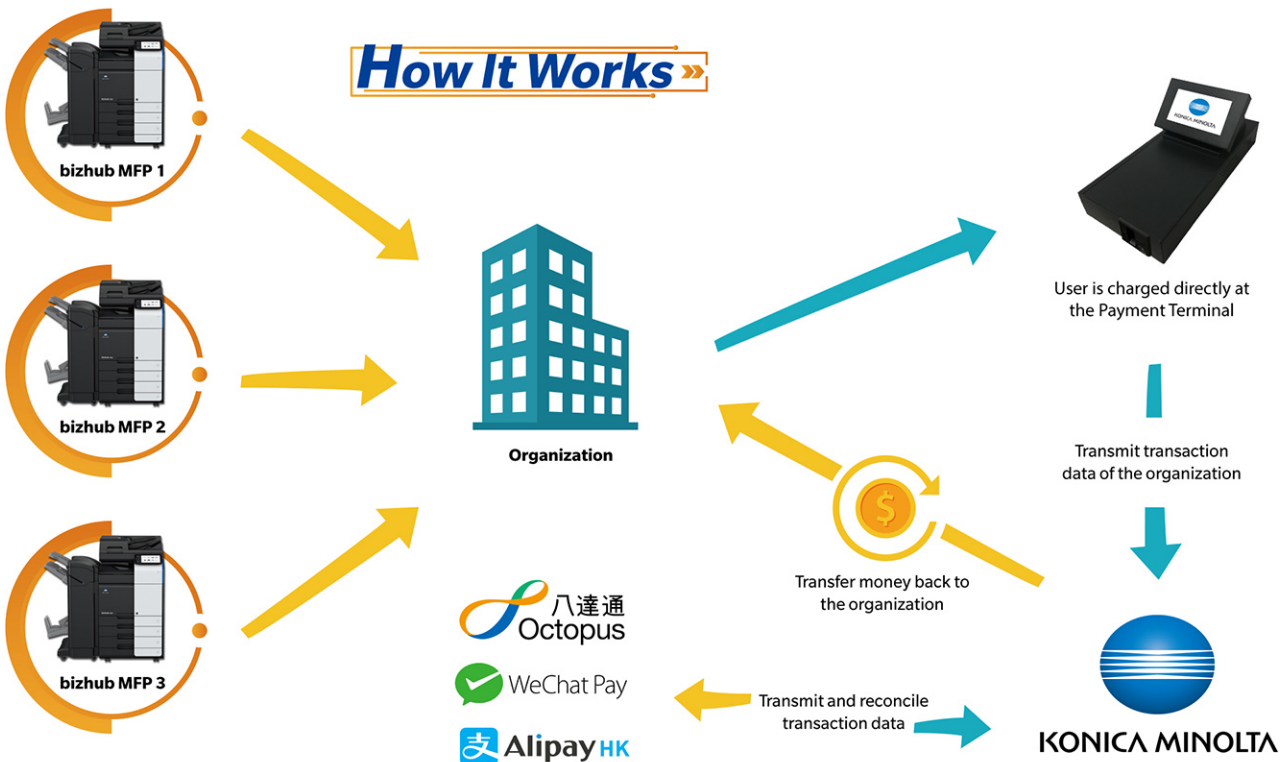

Risky in cash handling

Introduction »

Konica Minolta’s Direct Charging Solution, enabled with e-Payment System, provides administrators with a convenient method for settling payment in accordance with the “user pays” principle on bizhub multi-functional printers (MFPs). Each MFP can have its own charging scheme and operate independently as a self-serve printing workstation.

How It Works »

Key Features »

Discount pricing setting for specific period (Octopus only)

Auto-sent daily/monthly transaction data to administrator email

Real-time transaction log checking

Auto-sent E-receipt to customer email

Please select payment method

Various charging scheme based on :

- Job type (Print/ Copy)
- Paper size (A3/A4)
- Printing mode (Black & White / Color)
- Blank or duplex page

Benefits »

« To Administrator

Free administrators (or employees) from tedious tasks like coin exchange, collection and bank-in operations

Save time and reduce human error

Collect revenue in a secure, reliable and accurate way

Daily transaction report simplifies reconciling account on small transactions

« To User

User-friendly interface for encouraging self-service

Convenient to pay without hassling to get enough coins

Easy to own and top up e-wallet

Speed up payment process with e-payment
