 <p>Complex charging scheme</p>	 <p>Inflexible cost control</p>	 <p>Heavy & Time Consuming administrative work</p>	 <p>Risky cash handling</p>
--	--	--	--

Introduction »

Konica Minolta’s Direct Charging Solution, enabled with e-Payment System, provides administrators with a convenient method for settling payment in accordance with the “user pays” principle on bizhub multi-functional printers (MFPs). Each MFP can have its own charging scheme and operate independently as a self-service printing workstation.

Key Features »

Various charging scheme based on :

- Job type (Print/ Copy)
- Paper size (A3/A4)
- Printing mode (Black & White / Color)
- Simplex or duplex

Benefits »

« To Administrator

Free administrators (or employees) from tedious tasks like coin exchange, collection and bank-in operations

Save time and reduce human error

Collect revenue in a secure, reliable and accurate way

Daily transaction report simplify account reconciliation for small transactions

« To User

User-friendly interface for encouraging self-service

Convenient to pay without hassling to get enough coins

Easy to own and top up e-wallet

Speed up payment process with e-Payment
