

KONICA MINOLTA

Managed Robotic Services

Business Challenges you may face when investing robots for your business:

High capital investment

Shortage of skilled labour

Crucial demand-side flexibility

Safety and security concerns

Employing robots can be a viable alternative to tackle resource challenges while fostering a reliable workforce. Robot-as-a-Service (RaaS) enables companies to embrace automation with a lower cost of entry, along with more cost-effective support & maintenance from the Konica Minolta Robotic Service Team.
