# MONITOR YOUR bizhub's SECURITY SETTINGS

bizhubs have numerous security settings. To enjoy the peace of mind knowing your device is secure, we will take care of this. With different levels of our bizhub SECURE service, we can tailor the settings with regards to your needs. With the bizhub SECURE Notifier you have an application running on your device, which is visualising that your device is secure. With latest widget technology you can identify security status at first glance from homescreen. In addition, the application is proactively informing you in case a related setting has been changed.

## Requires bizhub SECURE service

Please get in touch with your Sales Representative for more details on the bizhub SECURE, bizhub SECURE Platinum and bizhub SECURE Ultimate Service.

### Feature 1: Visualisation of security settings

The status of security settings is shown on your bizhub control panel for quick, at-a-glance evaluation.

### Feature 2: Email notification

An email is sent to the system administrator whenever bizhub's security settings are changed so that prompt action can be taken.
