bizhub REFRESHED

Smart, Sustainable, Cost-Efficient Refreshed Devices

Empowering your business with sustainable printing solutions while reducing costs and supporting local ESG compliance.

Giving Shape to Ideas

Why Choose bizhub REFRESHED?

Leading the Way in Green Office Solutions

- Reduce your environmental impact and carbon footprint
- Meet Hong Kong's evolving ESG regulations and corporate sustainability needs
- Enjoy quality, performance, and cost-savings with refurbished equipment

With bizhub Refreshed, you get refurbished bizhub devices that offer resource and greenhouse gas (GHG) emission savings compared with the production of new devices.

Built for ESG Compliance A Smart Choice for Hong Kong Enterprises

Choose a bizhub Refreshed MFP and make a powerful step toward sustainability. You'll enjoy the same trusted performance while dramatically reducing environmental impact and operating costs — a smarter way to print, for your business and the planet.

bizhub REFRESHED helps address Scope 3 emission reduction targets

1. Results of life cycle impact assessment (LCIA)

*The Life Cycle Impact Assessment (LCIA) results shown above pertain to the bizhub C750i model.

It provides robust, third-party verified life-cycle greenhouse gas data for the bizhub device, covering production, use, and end-of-life stages. These per-device LCIA results can be directly used by customers as high-quality emission factors when preparing their own inventories—specifically for their purchased goods or capital goods (Scope 3, Categories 1 and 2), electricity consumption (Scope 2), and waste generated in operations (Scope 3, Category 5).

bizhub REFRESHED: HOW IT WORKS

bizhub Refreshed is one of the programmes we've established as part of our efforts to build a Circular Economy — an approach to sustainability that's good for everyone.

The programme is based on the principles of:

- Designing out waste and pollution
- Keeping products and materials in use as long as possible
- Regenerating natural systems

It provides a standardised process for putting pre-used bizhub devices back into service.

THREE STEPS TO REFRESH

STEP 1

We assess nearly 40 items for each candidate device for quality and evaluate their expected performance based on a range of stringent criteria and thresholds.

STEP 2

Devices that qualify for bizhub Refreshed are refurbished, which includes cleaning, security and firmware updates, data removal and safety checks.

If any components need replacing, we use original Konica Minolta parts.

STEP 3

Following final quality checks — including comprehensive printing, scanning and copying tests — refurbished devices receive the 'bizhub Refreshed' label. This confirms they offer the same performance and quality levels as comparable new devices.

Circular Economy & Sustainability Commitment

Shaping a Greener Future for Hong Kong

Build a Circular Economy guided by the UN Global Compact and the UN Sustainable Development Goals (SDGs), including SDG 12 on sustainable consumption and production.

Minimize waste and consumption of natural resources through

- Reducing
- Reusing
- Recycling

3R Strategies to Minimize Consumption of Natural Resources

Reducing

Reduce the use of primary resources as far as possible.

Reusing

Reduce end-of-life products and consumables for as long as possible.

Recycling

Enable the recycling of materials as many times as possible.

Customer Assurance

Customer can seamlessly adopt bizhub Refreshed devices into their print fleets. The program offers cost-effective, sustainable, and high-performance alternatives.

Cost-Effective

Sustainable

High-Performance

Mutual Benefit

REFRESHED transforms circular ambition into a scalable, and planet-positive business reality, creating shared value for all stakeholders.

For Customers

Cut costs and carbon footprint with high-quality, affordable, and sustainable technology.

For Society

Reduces e-waste and regenerates ecosystems, contributing to a healthier planet.

KONICA MINOLTA

READY FOR bizhub REFRESHED?

If you're ready to reduce your environmental impact with more sustainable MFPs, ask your Konica Minolta representative about bizhub Refreshed devices and how to add them to your fleet.

Product appearance, configuration and/or specifications are subject to change without notice. This product is not available for some countries or regions.
